Statistics tell us that approximately 80% of all businesses fail within 5 years. Statistics and past experience suggests that this is due to lack of business understanding, more specifically an inability to create a vision or purpose for their lives and a lack of belief that they can achieve success.

Join us for TWO Power Packed days on “HOW to create the life of your dreams and learn the strategies to help you overcome the fears that are stopping you from moving forward.”

Remember people don't plan to fail they just fail to plan!

Here's a convenient and extremely good value-for-money way to get access to Executive Business Coach David Bayne. *David* will tutor you with a select group of business people on getting your business to do what you want it to. So instead of your business controlling you, you can get in control! Share your learning with a like minded group of business owners who, like you, want to grow their business and get a life.

What you will learn...!

DAY ONE

The Secret to Setting Goals and how to use them to your advantage!

During this section we'll go into detail about how to set your goals in all 5 areas of your life. By setting goals in all areas of your life it will define why you are on this planet and what you are here to do. It's called your purpose. Napoleon Hill wrote an amazing book some 100 years ago and it is just as prevalent today! He talks about “Definiteness of purpose” I call it your Vision...same thing different words. Without a vision or purpose you are aimlessly going through life getting pushed and pulled by everyone else.

*We guarantee you will walk away from day one with a set of goals and a direction for your life and business!

DAY TWO

Self-Mastery: A Life changing day that is not to be missed

You will be given the secret to success in this session and you will step through a whole new world that you didn't know existed! The Self Mastery workshop is not for the faint hearted. We ask you not to attend this workshop if you do not want wealth, success and happiness. Be prepared to overcome your fears!
Be prepared to take massive action!
Be prepared to be kept accountable!

Learn why only 1% of the population are wealthy and yet 99% struggle on a daily basis just to get out of bed.

Why is it that Richard Branson can have eight “billion dollar” businesses and still have the time to enjoy himself and yet the average person doesn't have two minutes to spend on themselves or their families!

There is a right way and a wrong way. Join us and we will show you the right way!
